### READY TO TAKE ON YOUR PROJECT

*Looking to turn your pick-up into a hi-rail vehicle?*

*Do you have a specialty vehicle that needs an inspection?*

With our five truck bays, a rail bay, a mobile lift system (that is rated for equipment up to 55 tons), and team of expert mechanics (with a combined experience of nearly 90 years), our fully-equipped shop in Syracuse, NY, is able to accomplish almost any vehicle or equipment project. We are ready for your project!

- We are renowned experts at installing DMF rail gear and can put rail gear on just about anything - including excavators (and we have even worked on an armored personnel carrier).
- We can build grapple trucks from the chassis up to your specifications.
- We are certified to perform FMCSA/DOT inspections as well as mobile crane inspections.
- We are a New York State vehicle inspection station.

Contact us to discuss your equipment project!
